Description

The 2.5mm Fiber Optic Foam Swab is an excellent choice for FTTH, CO, or Data Com applications. While some foam can generate particles, this swab is manufactured with a tough, medical-grade urethane foam that provides excellent particle entrapment, and has resulted in millions of successful cleaning operations.

FEATURES & BENEFITS

Chemicals: 2.5mm Economical Foam Swab

- Flexible swab head conforms to connector face
- 2.5mm Fiber Optic Foam Swab provides outstanding particle entrapment
- No adhesives, binders, or fibers to leave residues
- Open-cell structure gives the best solvent holding capacity, enables less solvent to do more work
- Can be used with Electro-Wash® FX Fiber Optic Cleaner or Electro-Wash® CZ for all types of soils and contaminants
- Available in durable, field-ready, transparent tubes

APPLICATIONS

- Cleans 2.5 mm connectors and ferrules
- Cleans Test Equipment Ports
