Description

Electro-Wash® CZ Cleaner Degreaser is an all purpose cleaner for electronics that is nonflammable, non-ozone depleting, and safe on plastics. This fast drying precision cleaner contains Chemtronics' Cirozane™, which is based on HFE technology. It is excellent for removing grease, oil, and flux residues from energized equipment.

CIROZANE™ Cleaning Chemistry (CZ). Proprietary Solutions From Chemtronics.

Now, with CIROZANE CFC / HCFC Replacement chemistry, you won't need to make any more undesirable trade-offs. CIROZANE-based products offer you a high performance, ultra-safe "drop-in" replacement to all CFC and HCFC chemistries.

Chemicals: Electro-Wash CZ Degreaser

CIROZANE chemistry is the result of an 18-month research effort. CIROZANE-based products offer all the performance of CFCs and HCFCs without any ozone depleting compounds.

Note: As with all vapor degreaser equipment and processes, observe all safety precautions, guidelines and operating rules associated with these units. Failure to do so may put operations personnel at risk. Avoid excessive vapor losses, loss of refrigeration, excessive boil sump heat, etc. Make sure all equipment is operated in accordance with the manufacturer's guidelines and instructions. If in doubt, contact your manufacturer immediately.

FEATURES & BENEFITS

- Safe on plastics; outstanding material compatibility
- Nonflammable
- Dries fast
- Leaves no residue
- Aerosol utilizes All-Way Spray valve; sprays in any direction

APPLICATIONS

- Removes handling soils from live circuits
- Cleans oil and residue from sensitive surfaces
- Liquid can be used with ultrasonics, vapor degreasers, as a cold immersion solvent, or with spray dispensing system
