Description

Isopropyl Alcohol (IPA) Wipes remove solder paste, inks, and other contaminants. Alcohol wipes are ideal for all general cleaning applications. Alcohol wipes are well suited for touch-up cleaning of automatic printer stencils and cleaning of semi-automatic printer stencils during and at the end of production runs. IPA wipes contain ultra-pure Electronics Grade IPA. Isopropyl alcohol wipes are available in a C-fold wipe contained in a convenient dispensing box, or in a pull-through the tub.

FEATURES & BENEFITS

- Ultra pure mixture of IPA and deionized water

Chemicals: Isopropyl Alcohol Wipes

- Strong, will not tear, shred, unravel or lint
- Holds up to the most rigorous scrubbing
- SIP 125P, SIP100P and SIP91P pull-up pre-saturated wipes are ideal for cleaning of semi-automatic printer stencils, and touch-up cleaning of automatic printer stencils
- IPA100B wipes are lint free and pre-cut—excellent for cleaning fine pitch stencils
- Plastic safe

APPLICATIONS

- Pre-saturated Wipes are well suited for touch-up cleaning of automatic printer stencils and cleaning of semi-automatic printer stencils during and at the end of production runs.
