Description

Coventry™ Hi-Purity Alcohol Econowipes™ are poly-cellulose wipes saturated with 70% semiconductor grade isopropyl alcohol (IPA) filtered through 0.05 µm media, and 30% water deionized to at least 18 MΩ and filtered through 0.2 microns filter. The superior purity make these wipes effective and safe in the most critical applications, without leaving residues that are conducive to microbial growth or dendritic growth in electronics.

FEATURES & BENEFITS

- Economical for general purpose use

- Non-woven 55% cellulose / 45% polyester for greater saturation, low linting and high strength
- Low abrasiveness
- Ultra-low acidity, ionics, trace metallics, non-volatile residues (NVR) and particulates
- Increases safety by eliminating squirt bottles and spills
- Improves efficiency with consistent saturation
- Cleanroom double-bagged with resealable inner-bag to avoid solvent loss

Applications

- General cleanroom cleaning
- Cleaning critical metallic and non-metallic surfaces
- Aerospace production areas
- Medical device assembly
