Description

Available in two varieties: standard stainless steel and standard stainless steel with multi-outlet tips. Multi-outlet tips allow users to simultaneously dispense in multiple areas.

Manufactured with high-quality steel, our metal nozzles deliver precise, consistent fluid dispensing. They come in six different gauges ranging from 7 to 16.

Dispensing: Metal Nozzles

All Optimum® dispensing tips are manufactured in the USA in silicone-free facilities to prevent fluid contamination and are certified for industrial use.
