Description

The preflow eco-DUO600 is a rotating, perfectly pressure-tight, meter mix system with self-sealing rotor-stator arrangement. Conveyance action by material displacement in the stator through controlled rotor movement. Safe conveyance without any modification to the material. An added advantage of the 2 part dispensing system is that the flow can be reversed creating a clean and controlled stoppage of material. No drips, no mess!

Smallest dispensing quantity: 0.030ml
Adjustable dosing flow: 0.6 to 32 ml/min
Weight: 1,600g
