Description

SQR™ is the precision wipe system employing a patented process for cleaning fiber optic end-faces. It is a self-contained cleaning tool that can be used in the wet-to-dry combination cleaning process CCp™. The SQR™ is portable, convenient and economical for use in field or in tools kits.

FEATURES & BENEFITS

- Developed specifically for tight storage and transportation with test equipment and network components
- Large flat wiping surface provides up to 40 end face cleanings

Chemicals: SQR Compact Fiber Optic Cleaning System

- Use with Electro-Wash® PX or Fiber-Wash™ cleaning pens to perform the Combination Cleaning™ process

APPLICATIONS

- Provides an ideal Cleaning System for field or OEM applications
- Convenient Size - Portable system easily fits in tool cases and is handy to use on work benches. Easily slides into a pocket too.
- Heavy duty lint-free wiping material tough-enough to remove buffer-gel; soft enough for all end face cleaning
