Description

Offering a unique ridged platform, the QbE-R Cleaning Platform is designed to clean all FTTx connector geometries, including SC/LC, MT-Type, OptiFiber, and e2000 by cleaning the entire connector. It is the ultimate in performance and convenience, and provides First Time Cleaning, all the time.

FEATURES & BENEFITS

- Developed specifically for use with 2.5 mm SC and APC recessed connectors> Complete Fiber Optic Cleaning System — no refills to buy or investment in expensive mechanisms to maintain

Chemicals: QbE-R Cleaning Platform

- Provides the optimum cleaning surface – FiberSafe™ cleaning platen is perfect for outside plant or OEM applications
- Heavy duty lint-free wiping material — tough enough to remove buffer-gel and heavy soils, yet soft and compliant for safe end face cleaning
- Patented — U. S Patent Number 6,885,770 and foreign patents

APPLICATIONS

- End face cleaning for SC, APC & MTP Recessed Connectors
- Fusion splice preparation
- Buffer gel removal
