Description

The QbE-2 Cleaning Platform is designed for ultimate in performance and convenience. The cleaning platform includes our FiberSafe™ platen to assure no end face damage during cleaning processes. Using the QbE-2 platform makes UPC and APC (angled) end face cleaning easy and provides for First Time Cleaning.

FEATURES & BENEFITS

- Complete Fiber Optic Cleaning System — no refills to buy or investment in expensive mechanisms to maintain
- Provides the optimum cleaning surface — FiberSafe™ cleaning platen is perfect for outside plant or OEM applications

Chemicals: QbE-2 Portable Cleaning Platform

- Heavy duty lint-free wiping material — tough enough to remove buffer-gel and heavy soils, yet soft and compliant for safe end face cleaning
- Patented — U. S Patent Number 6,885,770 and foreign patentsUtilizes FiberSafe™ platen to assure proper cleaning without damaging the end face
- Convenient lanyard attachment

APPLICATIONS

- End face cleaning for LC, SC, FC, MT-Type and APC Connectors
- Fusion splice preparation
- Buffer gel removal
- QbE-2® should be used with either Electro-Wash® FX Fiberoptic Cleaner, or Fiber-Wash® Pens for first time cleaning
