Description

Optic Prep™ Premoistened Wipes are high quality premoistened lens-grade tissues for cleaning optical surfaces. These highly effective cleaning wipes are ideal for cleaning and polishing optical surfaces, lenses, photographic equipment, CRT and LCD screens and instruments. Optic Prep™ is safe for use on Fiber Optic Connectors.

Optic Prep™ Premoistened Wipes contain ultra-pure isopropyl alcohol (65% IPA / 35% Pure Water) on an ultra-soft, lens-grade tissue.

FEATURES & BENEFITS

- Safely cleans and polishes optical surfaces, lenses, photographic equipment, LCD and CRT screens and instruments
- Evaporates quickly, leaves no residue
- Compatible with most plastics, glass and metals
- Mild nonabrasive solvent
- Quickly removes dust, oils and contaminants

APPLICATIONS

- Safely cleans and polishes optical surfaces, lenses, photographic equipment, fiber optic connectors and instruments
- Innovative formula gently cleans LCD and plasma screens
