Description

FOCUS™ Fiberwash™ AQ Precision Fiber Optic Cleaning Pen contains a nonflammable, water-based cleaning solution that quickly and safely cleans the end face of fiber optic connectors, splices and ribbons. It also dissipates static charge, which prevents attracting airborne contamination that cling to the end face surface. The cleaning formulation has low odor, is plastic safe, and residue free. Because it is water-based, it has the environmental benefits of low VOC and GWP (Global Warming Potential). This non-pressurized container can be easily and safely transported. For best results, use with the Q&B® Cleaning Platform or ICT™ Clean Connect Tool and the Combination Cleaning™ process.

FEATURES & BENEFITS

- Nonflammable aqueous cleaner

Chemicals: Fiberwash AQ Fiber Optic Cleaning Pen

- Removes a broad range of soils: dust, oils, soils, complex soils, salts and other contaminants
- Residue free, low VOC, low global warming potential (GWP)
- Cleans alone or in combination with cleaning platforms, CCT™ tools or swabs
- Cleans and eliminates electrostatic deposits of airborne contaminants
- Completely portable — controlled dispensing of cleaning solution

APPLICATIONS

- Cleans UPC and APC 2.5mm SC (Types), 1.25mm LC (Types), MT-Type, and all military end face connections
- Removes handling and environmental soils from optical interfaces and back planes in conjunction with Coventry® brand precision swabs
- Removes contaminants from transmitters, amplifiers and transceivers, Buffer gel from connectors and end faces
